

**REMARKS**

The description has been amended to convert one long sentence listing parts and reference numbers into two narrative (multi-sentence) paragraphs. This should make this part of the description easier to read, but it will not introduce new matter.

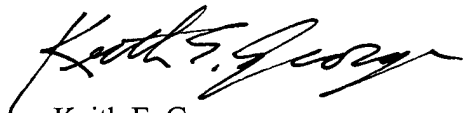

Claim 1 has been amended to remove the requirement for a content key in the first license, as that key is not further referenced in the claims. Claim 1 has also been amended to more clearly recite the content key in the second license, to thereby give clear antecedence for the reference to "said content key included in said second license" in the tenth paragraph. Other claims have been amended to eliminate possible non-sequitors.

Prompt entry of the clarifying amendments and favorable examination of this application are solicited.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 500417 and please credit any excess fees to such deposit account.

Respectfully submitted,

MCDERMOTT, WILL & EMERY
